

To Whom it May Concern,

The staff of UCA is dedicated to exemplifying Christ in all aspects of education and in their personal lives. I have observed a genuine spirituality as they have moved through the various situations of the school year, handling students, parents, and constituents with tact and kindness.

The children often remark on a valuable lesson that was taught during the school day, and they report conversations about "Jesus" and "Heaven" with an ease that makes it obvious that this is a frequent occurrence during their school days.

The teachers utilize stories, Bible lessons, chapel programs and Week of Prayer in an effective manner to reach each student at their individual level.
